Responsibility for the prosecution of the above-referenced application was recently transferred to O'Melveny & Myers. Attached is a Power of Attorney by Assignee of Entire Interest and Revocation of Prior Powers, along with a copy of the assignment from the inventors to Vicuron Pharmaceuticals Inc., which was submitted for recordation on December 6, 2004, to show proper chain of title. In reviewing the transferred file, we noted that the signature page of the assignment document was attached to the first page of the Declaration for Utility Patent Application in the Response to the Notice to File Missing Parts of Nonprovisional Application mailed on August 2, 2004, by the former attorneys. Out of an abundance of caution, Applicants enclose herewith the original Declaration executed by the inventors of record of the above invention.

The Commissioner is hereby authorized to charge any fees that may be required with the filing of these documents, or credit any overpayment, to Deposit Account No. 50-2862.

Respectfully submitted,

O'MELVENY & MYERS LLP
